## Introducing the Evolve LFP

Eguana has partnered with Pylontech to bring you the Evolve LFP, a **cobalt-free AC coupled** energy storage system, now available in North America. We have diversified our supply chain to remain a reliable supplier to our network of 200+ North American solar dealer partners and are now the only global system integrator to offer both an NMC and LFP product, both of which are based on our high-efficiency inverter platform.

### Safe and Reliable Cobalt-free Battery Chemistry

- Non-toxic and non-hazardous
- Superior thermal and chemical stability
- Incombustible and thermal runaway resistant

### Industry-leading Pricing

- Most cost competitive residential LFP energy storage system on the market

### Indoor or Outdoor Use

- NEMA 3R rated enclosure
- 32° to 122° F ambient operating temperature

### Maximum installation flexibility

- Modular wall-mount format
- Ideal for new or existing solar installations
- Compatible with all major solar PV inverter brands

### Custom Sizing

- Scalable from 14 kWh to 42 kWh storage capacity

### High Performance

- Deep discharge use in daily cycle applications

### Durability

- 10-year standard warranty
- 15-year, 6000+ cycle design life at 90% depth of discharge
